

FOCUS 250 WOOD BURNING FIREPLACE

The Focus 250 is a truly amazing fireplace. The compact body makes it versatile enough to use as a replacement for an existing fireplace, but the glass viewing space has been maximized. It is also ideal for installations where a raised hearth is desired, especially if the ceiling height is low. The efficiency and heat output are astounding, while the design is both simple and modern. The Focus 250 a contemporary wood burner that's not to be missed.
